SILVER SENATORS.

They Will Oppose the Issue of Bonds for War Purposes.
Washington, April 27.—While there is no doubt that the senators who advocate

the free coinage of silver will oppose the bond feature of the war revenue bill, the prospect is that they will not seek to de lay its passage on account of that provision. The bond provision will probably be stricken out in the committee on finance and restored in the senate.

Bangkok, Siam, April 27.—The United States minister here, Mr. John Barrett, in an interview said: "It is of the greatest importance that the United States should take the Philippine Islands. Their value is not realized at home. They are richer and larger than Cuba and in the hands of a strong power would be the key to the far east and to the Asiatic Pacific. The United States could either hold them for commercial or strategic reasons or negotiate with Great Britain to exchange them for the West India colonies of the latter, or else surrender them to other powers for reciprocal advantages."

A Card From H. Stmpson.

Atbuquerque, N. M., April 27 .- In yes Albaquerque, N. M., April 27.—In yesterday's issue of your valuable paper I observed the following remarks as emanating from the Honorable Mayor of this city, viz: "It has been suggested that the nickie-in the-slot methines ought to pay a sie-cese, also pawnbrokers, neither of which institutions now pay anything."

This latter remark is very misleading to the public and unjust to me, the only licensed broker in the city. I, therefore, wish to inform the community in general that my license costs me \$250 a year, hair of which amount is appropriated to the schools.

Havana, via Clenfuegos, April 37.—The Spanish troups throughout the island have been concentrated at different points along the coast so as to be ready to meet any attempt to land troops from the United States. Thousands of men are reported for enlistment in the volunteer battalions.

half of which amount is aperopriated to the schools.

While on this subject, if not monopolizing too much of your space, I may add that if the bionorable Mayor alinds to the numerous persons in the city who are doing a pawnbrokers' business in disquise, I think the sooner those individuals are made to pay a license the better or at least compelled to cease loaning without further delay. If some steps are not taken in that direction I shall have to close my establishment for shall have to close my establishment for want of enough business to enable me to get a fair renumeration for my time and capital while paying the existing high liceuse.

Yours respectfully,
H. Simpson.

She has a sister working in Albuquerque The older girl was 17 years of age and hought the tickets. Inasmuch as they had no change of ciothing friends of the young girls think they will return soon, and that the escapade is merely a mad lark of two children. They went away alone and the slore that they were not alone, and the story that they went away cured by some unscruptious person for villations purposes is not credited. Any report reflecting on their character is ddered premature and unwarranted Both girls have in the past borne excel-lent reputations. Interested parties are still searching for them.

The above is taken from the New Mexican, which is published at the home of the two runaways.
